

HYDRON INCORPORATED

HYDRAULIC CRIMPERS

STANLEY[®]

Stanley's double acting crimping tools make fast work of crimping connectors to electric power cable. Up to 10 times faster than hand pumped tools. "Double acting" means power to make the crimp and power to release the crimp, no hanging-up on the connector. Crimping tools are available in a variety of models so that you can use crimping dies and sleeves already in your inventory. All models contain integral relief valve to control die loads.

SPECIFICATIONS

No.	Weight	Length	Width	Flow Range	Crimping Force	Capacity	Compression Tooling
CT04016N	12.8 lbs	20 in.	3-3/4 in.	3-9 gpm	4.4 ton	#6-4/0	Kearney "D" Nest, Kearney 'O' Dies, Burndy 'W' Dies
CT06026N	14 lbs	20 in.	7-1/4 in.	3-9 gpm	6 ton	#10-750 MCM Aluminum, #10-500MCM Copper	Anderson
CT10016N	16 lbs	22 in.	7 in.	3-9 gpm	12 ton	500 MCM Copper, 636 MCM Aluminum 155.6 ACSR	Burndy Y-35/U-Dies
CT10066AN	19 lbs	22 in.	7 in.	3-9 gpm	12 ton	750 MCM Copper/Aluminum	Burndy Y-35/U-Dies
CT15036UN	31 lbs	29 in.	7 in.	3-9 gpm	15 ton	500 MCM Copper/1000 MCM Aluminum, 795 MCM ACSR	Y-46/TBM15

HYDRAULIC POWER UNITS

Hydraulic power to operate Stanley's large line of hydraulic tools is available in small, compact, and efficient units as shown below like the GT18 that is about the size of a wheelbarrow. The versatility of hydraulics allows for an even wider range of uses such as the TracHorse that is a small carryall with hydraulic drive tracks, powered tilt bed, and hydraulic tool circuit. And the HV18 Hydraulic Converter lets you operate hydraulic tools from your skidsteer loader or backhoe.

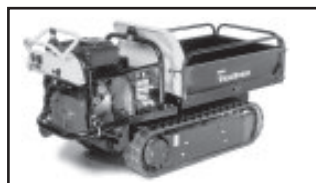

GT18 Compact Power Unit

- Available with Briggs or Honda engine
- 110 VAC, 60Hz electric power option (Briggs only)

HV18 Hydraulic Converter

MHP1 TracHorse All Terrain Carrier & Power Unit
