

HYDRON INCORPORATED

LONG REACH HYDRAULIC TOOL HOLDERS

Jameson's series of boom mount tool holders provide safe, convenient, out of bucket storage for all standard bucket truck accessories; including hydraulic circular saws and long reach chain saws. Made from high impact plastic, can be strapped to square or round booms and are adjustable to any convenient position.

24-04R Handle Unit

All of Jameson's hydraulic boom mount tool holders include the Jameson Handle Unit. This web strap and ratchet lock clamp fastens the hydraulic tool into a fixed position on the boom. It's rubberized liner prevents the tool handle from sliding out of the upper holder box. Fits both round and square booms.

24-04R

24-09R 5' Nylon
Strap with Ratchet

24-08R Tool Handle

Long Reach Chain Saw Holder Stanley Style 24-03 Greenlee/Fairmont Style 24-03F

Stores any standard hydraulic "stick saw". Keeps the tool out of the bucket when working around electrical lines. Ideal for storing hydraulic pruning tools when the vehicle is in transit.

24-03

24-04 Hydraulic Pruner Holder

Made from high impact plastic, this holder stores any standard hydraulic pruner.

24-04

24-14A Hydraulic Pistol Grip and Standard Chain Saw Holder

High impact scabbard keeps chain saws off the bucket floor. Can also be used with hydraulic pistol grip chain saws. Special offset keeps muffler away from scabbard. Adjusts up to a 6" bucket flange size.

24-14A

24-02 Circular Saw Holder (not illustrated)

This unique boom mount tool holder provides a safe and out of bucket storage location for all standard hydraulic circular saws. Made of high impact plastic, the holder unit can be strapped to square or round booms and is adjustable to any convenient position.
