BODY BELT ACCESSORIES

BELT SUPPORTERS

Belt supporters are used by those who carry an unusually heavy load of tools or who for personal reasons like to spread the belt weight to either a waist strap or shoulder harness. Belt supporters are **NOT** safety harnesses and are **NOT** intended to support the weight of the wearer.

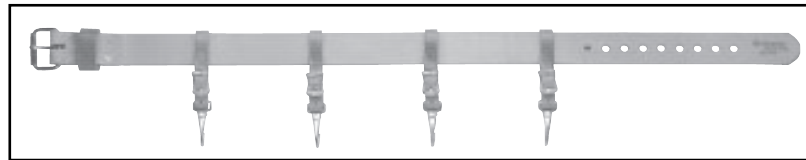

6259 is an adjustable suspender type belt support with movable shoulder pads that allow weight distribution on the shoulders. This pliable but sturdy 1" nylon supporter is equipped with heavy duty snaps to attach easily to the tool belt support rings.

62593 Same as 6259 with adjustable loops instead of snaps.

*6258 Same as 6259 using 3/4" leather.

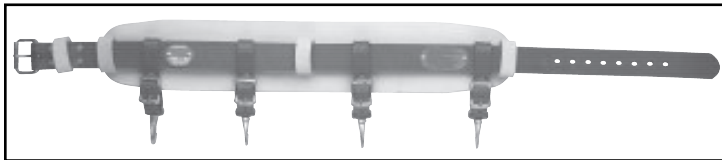

*62583 Same as 6258 with adjustable loops instead of snaps.

***6257**

6257 is favored by many since it allows greater freedom of movement than an over-the-shoulder type supporter. It is 1 3/4" top-grain leather and is equipped with sturdy snaps on moveable leather loops. Order by size: S, M, L, XL.

***6258**

***6256**

6256 — This nylon gut strap with wide leather pad is designed to provide the user a longer life expectancy over the all leather design. Even though the nylon offers a greater strength than leather, it is not to be used as a support component. Its sole purpose is to provide the user a method to distribute the weight of body belt and tools with comfort by adding the wide leather pad for back support. Order S, M, L, XL.

SUPPORTER SIZING

Size	Range	Typically Fit for a Person With Waist Size
Small	30-38	28-32
Medium	34-42	32-36
Large	40-48	36-40
X-Large	46-54	40-44

*Available in three colors. Add BL for black, BR for brown, and BU for burgundy.

Back Saver

***6272**

6272 — Attaches to any body belt having four belt support dees. The take-up straps in the back with back saver buckle, plus the front buckle assure a comfortable fit. As shown here, the 6272 is attached to Buckingham's 1988 belt. For proper fit — take dee size center hole measurement on page 12 and subtract 2. Example dee size 23, center hole measurement is 42 subtract 2. Order a 6272-40.

Polymer Handline Hook

2402 — The flexible nylon is designed to release the handline when tension is exerted. To install simply insert on the waist belt.
