

HYDRON INCORPORATED

TRIPLE SQUARE RATCHET WRENCHES

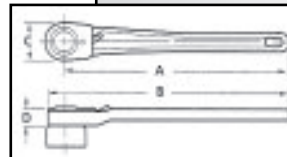

ONE WRENCH DOES THE WORK OF MANY.

- Ergonomic handle shapes make work more comfortable. Model 151T has a vinyl grip.
- Reversing control in head.
- Enclosed ratchet mechanism on Model, 51T; semi-enclosed on Model 151T.
- Florescent orange sockets make the wrenches harder to lose, easier to find.
- Bolt-Thru design lets bolts pass entirely through sockets and arm head so nuts can be secured on any threaded length.
- Triple square wrench with its 3-in-1 socket fits the most common utility pole fasteners: Lag Bolts, "C" Clamps and Suspension Bolts. The 1/2", 5/8" and 3/4" bolts found on these fasteners use 3/4", 1" and 1 1/8" square nuts that the 3-in-1 triple square socket is designed to fit.

No.	A	B	C	D	Weight
51T	12"	13"	2 1/16"	15/16"	2 1/8 lb.
151T	12"	13"	2 1/16"	15/16"	2 1/8 lb.

WRENCHES

3146

LINEMAN'S WRENCHES Standard Type

Forged from special bar steel and heat treated. Each end has two different size openings. Hole is provided at larger end for turning-in standard pole steps. Wrench is particularly suited for use on the heavier three-bolt buy clamps on which clearance is limited. Wrench is 13" long. Available for 5/8" or 3/4" hardware.

No.	Description
3146	For 5/8" hardware. Large end has 1 3/32" and 29/32" openings. Small end has 13/16" and 5/8" openings. Dark blue painted finish.
3146A	For 3/4" hardware. Large end has 1 1/16" and 1 5/16" openings. Small end has 5/8" and 7/8" openings. Dark blue painted finish with small end painted white.
