

HYDRON INCORPORATED

PORT A WRAP III

601N

There isn't much we accept as good enough at Buckingham. First there was the Port-A-Wrap; a good design, but with limited features. Then there was the Port-A-Wrap II, a great improvement with a rope retention bar and a second eye for lifting limbs when used with the 601BT shown below. The Port-A-Wrap III is designed with everything noted, plus more.

- More user friendly, designed to make attachment of rigging line easier.
- Secure rope retention bar - eliminates loss of wrap.
- Stronger, more durable construction.
- Safe working load of 2000 lbs.

AVAILABLE IN VARIOUS FINISHES AND SIZES

Small Design

Use up to 5/8" rope

601 Powder Coated

601N Nickel Plated

Weight 4 lbs.

Large Design

Use up to 1" rope

601L Powder Coated

601LN Nickel Plated

Weight 7 1/4 lbs.

(Nickel Plating is most durable.)

ARBORIST
EQUIPMENT

Aluminum Port-A-Wrap III

The Buckingham Port-A-Wrap III just got better. The *Aluminum Port-A-Wrap III* offers all the benefits of the steel Port-A-Wrap III and more.

Some of the benefits of the Aluminum Port-A-Wrap III are:

- Dissipates heat faster, reducing damage to rigging line. **602AL**
- Light weight (3 lbs.)
- Hardcoat anodized aluminum provides a smooth yet durable finish.
- Safe working load of 2,000 lbs.

Mini Port-A-Wrap III

All the features of the Port-A-Wrap III are now available in a mini Port-A-Wrap. At 1lb. 7oz. the Mini Port-A-Wrap is light enough to take aloft for light rigging applications. Finally a lightweight rigging device designed to be used by arborists while working aloft.

- Weight 1 lb. 7 oz.
- Dimensions 5 1/2"W x 6 1/2"H
- Safe working load 1000 lbs.
- Use up to 1/2" rope

601M Powder Coated

601MN Nickel Plated
